1.0 INTRODUCTION

The PAPU Tower building is the new Headquarters for Africa's continental body, the Pan-African Postal Union, a specialized agency of the African Union that is responsible for coordinating postal development in Africa. The PAPU Tower is a joint venture project between PAPU and the United Republic of Tanzania (represented by the Tanzania Communications Regulatory Authority (TCRA), where financing is 60% by PAPU and 40% by TCRA. The building, which has been under construction since 2020, will be commissioned on 2nd September 2023.

In line with the consolidated PAPU Action Plan for 2022-2025, the Union has a leeway to participate in joint stamp issues to promote African heritage and events. To that effect, the Promotion of Philately Working Group established a Task Team to propose Annual Themes for joint stamp issues. The Task Team proposed the issuance of a joint commemorative Stamp to mark the commissioning of the PAPU Tower by the President of the United Republic of Tanzania, Her Excellency Dr. Samia Suluhu Hassan.

Further to the above, StampsDaq offered to issue a crypto stamp on behalf of interested Member States to mark the event. The cost of issuing the crypto stamp would be borne by StampDaq and its Partners, and a percentage of the proceeds from the sale of the crypto stamps would be donated to PAPU.
